## 1. Introduction

This policy has been developed to protect all employees, whether employed directly by Thorns Primary School or through an agency, and visitors from exposure to second-hand smoke.

From 1<sup>st</sup> July 2007 smoking was prohibited in all workplace premises and the policy was first implemented from this date to ensure Thorns Primary School is smoke-free.

The Policy takes all possible reasonable steps to protect colleagues and pupils from second-hand smoke exposure and to comply with legislative requirements. The School acknowledges that some colleagues use electronic cigarettes (“e-cigarettes”) and although they fall outside the scope of smoke-free legislation, the same conditions will apply throughout this policy, in that the School prohibits the use of e-cigarettes in the workplace and all its associated buildings and grounds.

## 2. Responsibilities

The Governing Body, the Headteacher and Senior Leadership Team fully support this policy and its implementation to ensure full compliance.

All governors, employees, visitors, and contractors must observe and comply with this Smoke-Free Policy and related legislation.

## 3. Legal Requirements

The Health Act 2006 aims to: -

- Protect the health of our colleagues
- Protect the health of customers/service users.

In provisions made under the **Health Act 2006**, all **enclosed** and **substantially** enclosed workplaces and public places will be legally required to be smoke free.

### 3.1. Substantially Enclosed Workplaces

Premises are substantially enclosed if they have a ceiling or roof, and the walls are more than half of the perimeter of the premises. This is known as the 50% rule as in order for smoking to be allowed in a structure, at least 50% of the walls to the structure must be missing.

This means that some outdoor buildings and car parks will be substantially enclosed and must be signed as smoke-free areas.

### **3.2. No Smoking Signage**

There are legal requirements to display no smoking signs in or on any premises that are affected by a smoking ban, so that they can be read by people on the premises and approaching the premises. They must be obviously displayed and protected from tampering, damage, removal or concealment as it is an offence to smoke in a smoke free area.

Information is contained within the Smoke-Free (Signs) Regulations 2012 regarding the appropriate size of signage.

### **3.3. External Smoking Areas**

Smoking in sheltered doorways that are substantially enclosed is illegal.

In addition to the legislation, Thorns Primary School has determined that smoking near entrances or exits to these Schools buildings, and in locations where smoke can enter buildings through open windows or ventilation systems will be prohibited.

There is no requirement under the legislation to provide an external smoking shelter.

### **3.4. Home Visits**

People's homes are not covered by the legislation, whether they are private or social houses. Colleagues who must visit pupil's homes are at risk if they are visiting a smoker. If the person you are visiting is a smoker, please refer to **section 6.3** for support and guidance on what reasonable steps should be taken.

### **3.5. Premises used by Children**

Under the legislation, all public premises used or visited by children must be smoke-free. In addition to the legislation, in all schools where Dudley Council is the employer has decided that the entire school grounds will be smoke-free.

### **3.6. Smoke-free Vehicles**

The law requires school owned vehicles to be smoke-free at all times if they are used:

- To transport members of the public and/or pupils
- During paid or voluntary work by more than one person – regardless of whether they are in the vehicle at the same time

All School vehicles will continue to be smoke-free. Smoke-Free vehicles will need to display a no-smoking symbol.

There is a requirement to observe, co-operate and comply with the School's Smoke-Free Policy and legislation. Compliance will be encouraged and where necessary management should be informed of any breaches. Visitors should be made aware that there is a statutory duty not to allow smoking in our premises and vehicles.

#### **4. Smoke Breaks (Unpaid Breaks)**

Thorns Primary School **prohibits** its employees from taking smoke breaks during work time.

Colleagues who choose to smoke during unpaid breaks must still adhere to the requirements to be outside and away from entrances or exits to the school or where smoke can re-enter buildings through windows or ventilation systems.

#### **5. Electronic Cigarettes**

E-cigarettes are battery-powered products that release a visible vapour containing liquid nicotine that is inhaled by the user. Although they fall outside the scope of smoke-free legislation, the school **prohibits** the use of e-cigarettes in the workplace and all school buildings/premises by governors, employees, visitors and members of the public and the conditions set out in this Policy will also be applied to the use of e-cigarettes.

#### **6. Non-Compliance**

In all situations, failure to comply with the law is a criminal offence. Individuals and organisations could be liable for a fixed penalty fine for smoking in no smoking premises/vehicles.

Under the legislation, **Appendix 1** provides further details of the fixed penalty notices and maximum fines to offences of non-compliance.

##### **6.1. Non-Compliance - Employees**

- Report incidents of non-compliance to a member of the Senior Leadership Team.
- If any person refuses to acknowledge the school Policy, the employee will be liable to disciplinary action in accordance with the School Disciplinary Policy and Procedures.
- The school should maintain a record of all such incidents and outcomes.

##### **6.2. Non-Compliance – Visitors**

- Draw the person's attention to the No Smoking signs and remind them they are committing an offence and breaching policy, politely ask them to stop smoking.
- Advise the person that it is also an offence for you to allow anyone to smoke.

- Explain that the school is obliged to refuse service to visitor's if they continue to smoke (on School premises or in vehicles).
- If the visitor continues to smoke, they should be asked to leave the premises.
- Implement the normal anti-social/illegal behaviour procedure.
- Maintain a record of incidents and outcomes.
- It may be necessary to contact a senior member of staff to assist.

### 6.3. Dealing with Non-Compliance – Home Visits

- Ask the service user (or their relatives/visitors) politely if they could refrain from smoking for the duration of the visit or if they could smoke in another room.
- If they continue, depending on whether this is Social/Private housing implement the normal anti-social/illegal behaviour procedure or exit the property.
- Maintain a record of incidents and outcomes.
